

Keng Fu Chu

DATA + ART

Principal Product Designer In BI, Data, And AI / Award-Winning Robot Art Artist

CHALLENGE

Appointed to lead the flagship Dashboard Freeform Editor overhaul - transition from rigid grids to a flexible, modern design ecosystem.

ACTION

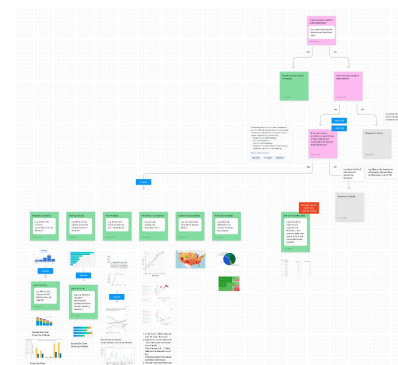

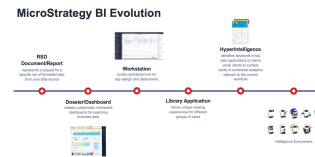

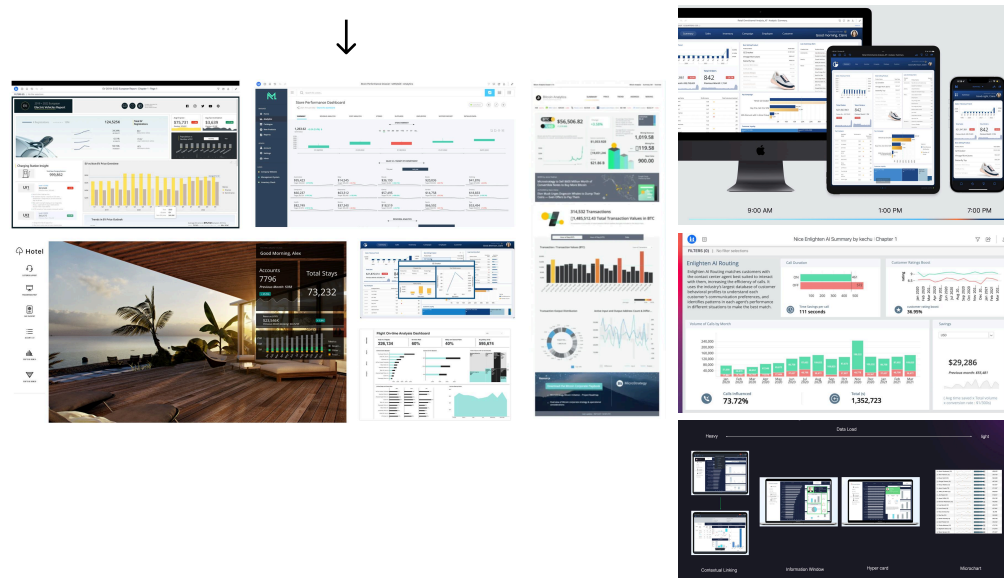

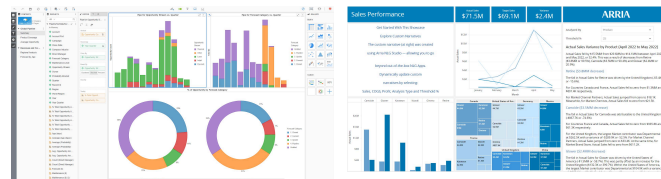

- Lead Product Design: Architected Freeform, Panel Stack, IW, and Responsive editors.

RESULT

- Contributed to the Gartner BI quadrant shift from Niche to **Visionary/Challenger** (2017-2023)
- #1 Rankings:** Top-ranked in Visual Design and Mobile BI via BARC user studies.
- 3x Customer Choice: **Gartner Customers' Choice** (2022-2024).

Strategic Product Leadership

I transformed Design into a primary driver of enterprise growth. By leading the Freeform Editor, I proved that high-level data governance and creative freedom can coexist at a Fortune 500 scale.

CHALLENGE

Increasing adoption and AI readiness across **500+** enterprise clients.

ACTION

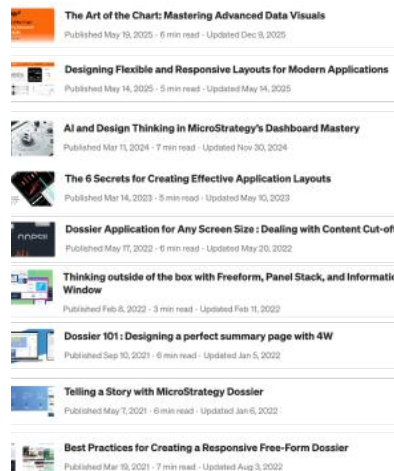

- Led workshops for **100+** attendees per session.
- Pioneered **AI-UX** curriculum and Prompt Engineering strategy.
- Published insights to **10,000+** views via Medium.

RESULT

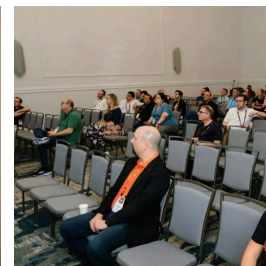

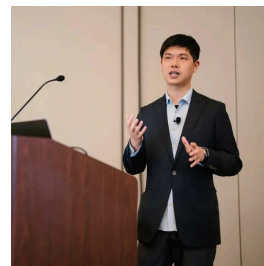

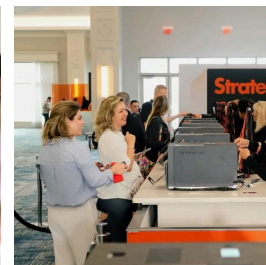

- **99%** Satisfaction (**214/216** rating) in technical tracks.
- **4.8/5.0** Rating maintained during transition to Design Architect.
- Annual **SE100** Training : Successfully scaled from Tool to Executive AI Strategy.

Thought Leadership & Knowledge Advocacy

Bridging the gap between complex product capabilities and user adoption in a rapidly evolving BI landscape. The organization needed a way to not only showcase new features like Freeform, AI and Parameters but to ensure high-stakes customers could translate these tools into business value.

<https://kechu.medium.com/>

CHALLENGE

Solving complex UX and strategic challenges face-to-face for Tier-1 clients including **Hilton, Pfizer, Bank of America, and NICE**.

ACTION

- **Strategic Advisory:** Led on-site discovery to align design with business goals.
- **Executive Prototyping:** Built high-fidelity solutions for C-suite.
- **Partner Collaboration:** Bridged the gap between Sales, Engineering, and Clients.

RESULT

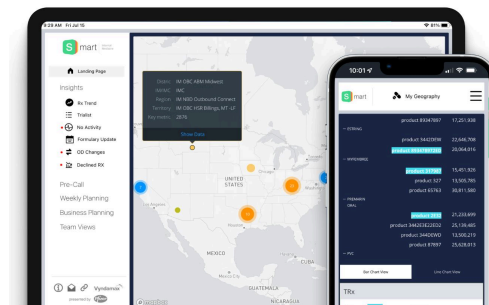

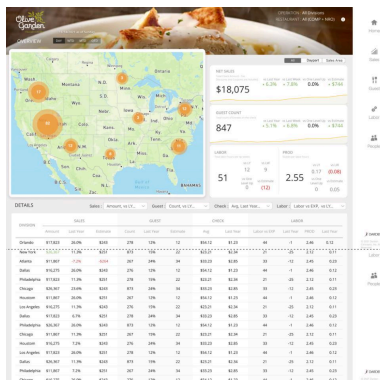

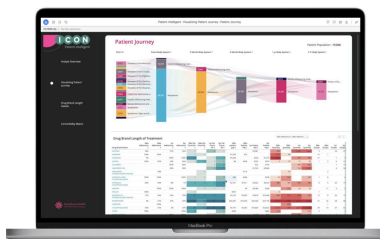

- **\$11.5M BofA Deal:** Largest deal in 10 years via modern branch experience.
- **Strategic Trust:** Established long-term partnerships with **Fortune 500 leaders**.

Strategic Partnership & Design Advocacy

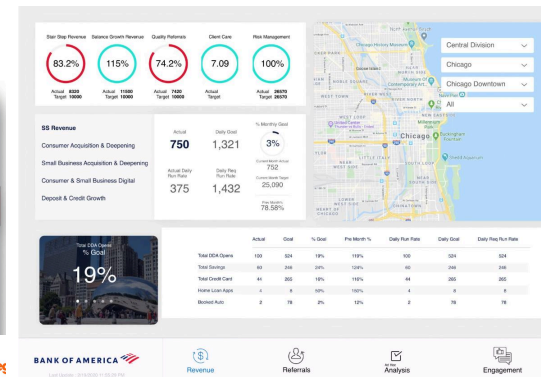

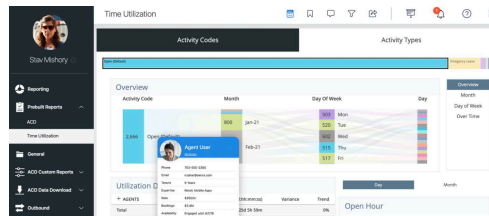

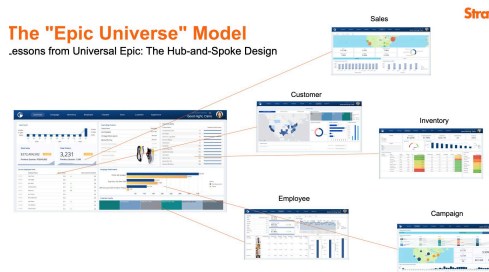

I drive business outcomes. By partnering directly with global giants like Hilton and BofA, I transform design into a strategic asset that solves real-world financial and operational complexities.

Identify the Challenge Ideation Art of Possible

The "Epic Universe" Model
Lessons from Universal Epic: The Hub-and-Spoke Design

CHALLENGE

Transforming complex BI strategies and technical roadmaps into high-impact narratives for **Gartner**, **Keynote**, and **SKO**.

ACTION

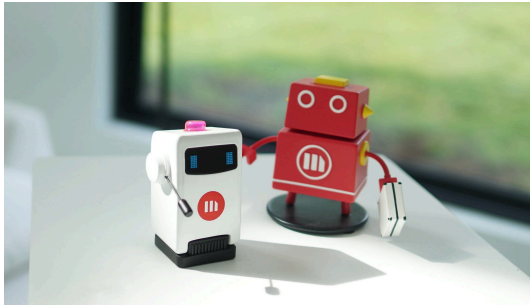

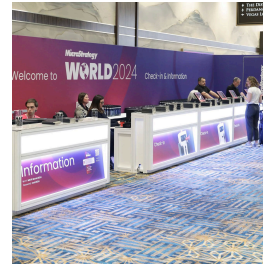

- Event Branding: Designed mascots to drive attendee engagement.
- Motion Graphics: Produced assets to amplify session storytelling.

RESULT

- **8 World Keynotes:** Lead visual designer since 2018.
- **Global Scale:** Executed countless SKOs and international events.

Visual Strategy & Brand Impact

I bridge technical complexity and executive vision. From mascots to diagrams, I design the visual language of business strategy to drive measurable corporate impact across world-class stages.

CHALLENGE

Align personal project **Mosaic Navigator** with Strategy
Mosaic roadmap to fix enterprise
AI semantic gaps.

ACTION

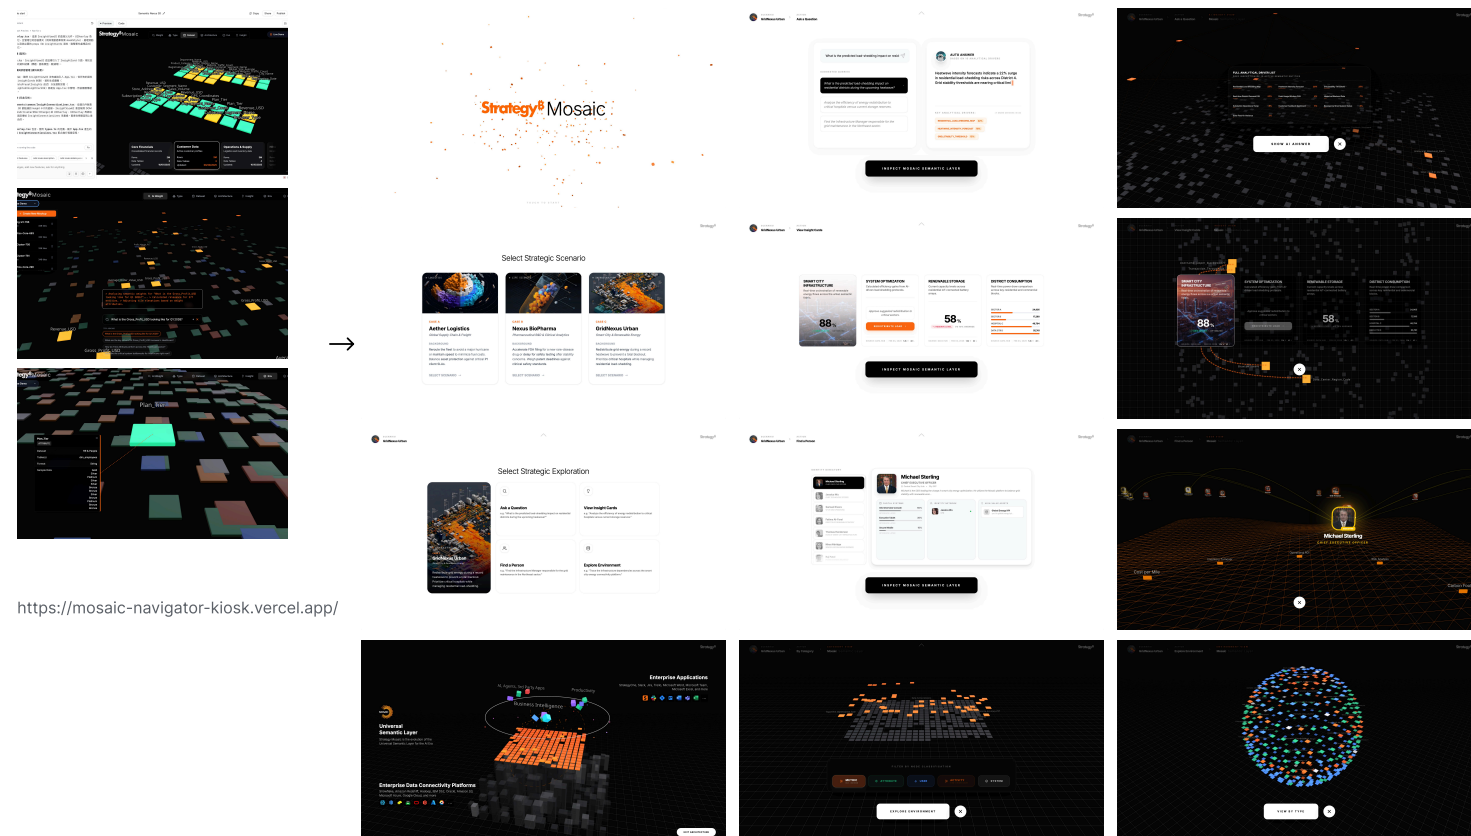

- **Immersive Vibe Coding:** Merged natural language interaction with the **Semantic Layer** for seamless UX.
- **Product Integration:** Baked optimized caching and governance logic into the core product to reduce costs and hallucinations.

RESULT

- **100% Logic Sync:**
Guaranteed AI agents use a single source of truth for calculations.
 - **Strategic Scale:**
Transformed from a tool to a key Strategy **World**
- 2027 AI solution.**

Product Innovation & Strategic Alignment

Scaling personal "Vibe Coding" experiments into Strategy World 2027's core AI offerings. By bridging individual prototypes with the Mosaic universal semantic layer, this initiative enables users to immerse themselves in governed data through intuitive, conversational interaction.

CHALLENGE

Exploring the intersection of digital and physical art through the FUROBOT series, prioritizing raw craft over commercial utility.

ACTION

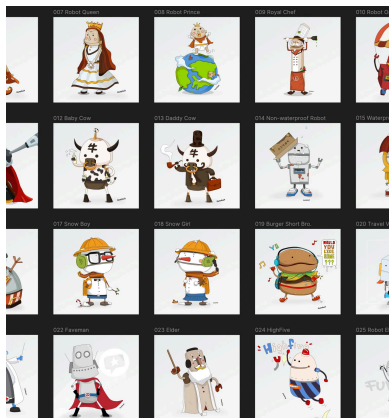

- Character Creation: Developed the **FUROBOT** series as a core narrative engine.
- Multidisciplinary Craft: Merged traditional **sculpture** with cutting-edge digital design.

RESULT

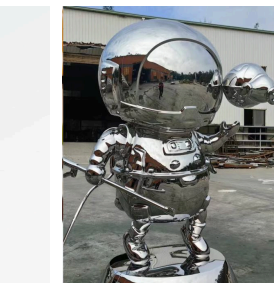

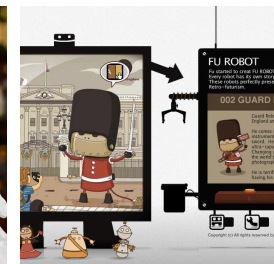

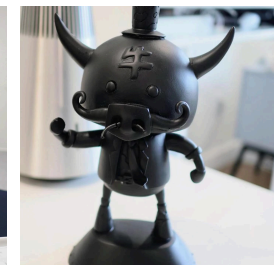

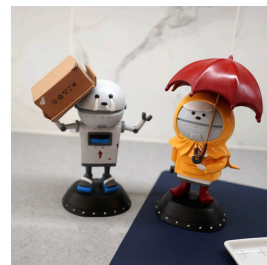

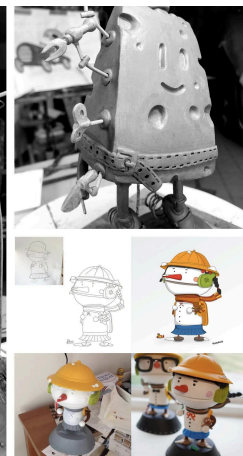

- **4x FWA Awards:** Recognized for digital innovation.
- **Webby Award:** Honored for excellence in web art.
- Global Publishing: Featured in **Illustration Now** (Top 150 Illustrators).

Experimental Art & Storytelling

FUROBOT is a personal odyssey in character-driven storytelling. By weaving 20 years of expertise into a playful, robotic universe, I've proven that non-conformist experimentation is the ultimate driver of both technical evolution and emotional resonance. Each creation is a dialogue between my Taiwanese roots and modern digital craft—transforming static pixels into a living, global narrative.

CHALLENGE

Developing a personal sandbox to master the intersection of Tech + Art without commercial distraction or marketing noise.

ACTION

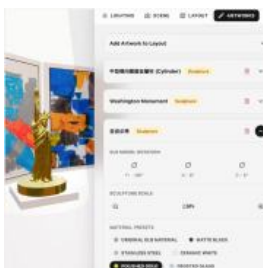

- **Solo-developed** kurodot.io from scratch as a pure Maker project.
- Integrated **Firestore, Auth, and Umami** for full-stack control.
- Architected custom pipelines for ***glb 3D model** conversion.

RESULT

- **100% Technical Ownership:** Zero external dependencies
- **Maker Spirit:** Proved that mastery thrives in solitude.

Maker Spirit & Technical Craft

Kurodot.io is a laboratory where I prioritize the "How" over the "How many." It is a testament to technical persistence—building complex 3D systems for the sheer joy of creation and the pursuit of engineering mastery.

THEME EFFECTS

Unleash surreal scenes—rain, snow, drifting leaves, and starlit skies.
Seamlessly blend artworks with boundless atmospheric conditions
